> Re: KAIA(FM), Blytheville, Arkansas
>   Facility Identification Number: 76841
>   Educational Media Foundation
>   Special Temporary Authorization

Dear Counsel:

This is in reference to the request filed February 6, 2009, on behalf of Educational Media Foundation ("EMF"). EMF requests further extension of the special temporary authority ("STA") granted on August 10, 2007, to operate Station KAIA with reduced power.[1] In support of the request, EMF states that it is diligently working toward completion of new facilities authorized by Construction Permit BPED-20070730ACS.

Our review indicates that, subsequent to the filing of the request for extension of STA, EMF completed construction of its modified facilities and filed Application BLED-20090717ABE, which remains pending. Pursuant to Section 73.1620(a)(2), EMF may operate from the new site with 50 percent of the authorized directional effective radiated power pending grant of Program Test Authority for full power operation. In view of the foregoing, STA is no longer necessary.

Accordingly, the request for extension of STA IS HEREBY DISMISSED.

Sincerely,

Charles N. Miller, Engineer
Audio Division
Media Bureau

cc: Educational Media Foundation

---

[1] KAIA is licensed for operation on Channel 218A (91.5 MHz) with effective radiated power ("ERP") of 1 kilowatt (H&V) and antenna height above average terrain ("HAAT") of 58 meters. Construction Permit BPED-20070730ACS authorizes a change in community of license to Bloomfield, Missouri, an upgrade to Class C1, relocation of the transmitter and operation with ERP of 49 kW (Max-DA, V only) and HAAT of 127 meters.
